EDUCATION

Dayananda Sagar College Of Engineering

Bachelor of Engineering - Electronics and Communication Engineering

2022 - 2026

TECHNICAL SKILLS

Languages: HTML ,CSS ,Javascript, C++, Python

Technologies/Frameworks: React.js, Node.js

Version Control: Git, Github

AI/ML Tools : Numpy, TensorFlow, PyTorch, Keras

Databases: MongoDB, SQL

Other Skills: MS Excel , Power BI

EXPERIENCE

Startup Folks

August - October 2025

Frontend Developer : Javascript,React.js

Intern : Bangalore, India

- Developed and maintained responsive, high-performance web applications using React.js, enhancing user experience (UX) and minimizing UI inconsistencies
- Implemented performance optimizations on client-side applications, significantly reducing page load times and improving overall site responsiveness

BlueStock

January - March 2026

SDE Intern

Intern : Bangalore, India

- Contributed to the development and maintenance of stock market-oriented web applications by implementing frontend components, integrating APIs, and supporting application functionality.
- Worked with databases and application workflows to perform testing, debugging, troubleshooting, and issue resolution, ensuring reliable application performance and user experience.

PROJECTS

Telegram Bot | Python | Github

- Developed Python telegram API to mitigate cyber-bullying through automated content monitoring to identify inappropriate messages and harmful content, issuing warnings, removing messages, or banning users .

Portfolio Page | Javascript | Deployment | Github

- Developed and deployed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, technical skills, achievements, and professional profiles, while leveraging Git and GitHub for version control and project management

Audio Steganography | Python | Github

- Developed a GUI-based steganography system using Tkinter, enabling secure embedding and extraction of text, images, and audio within WAV files.

Fake News Detection via Lip Sync | Python- CNN-LSTM | Github

- Developed a deep learning model combining Convolutional Neural Networks (CNNs) and Long Short-Term Memory (LSTM) networks to recognize spoken words based on visual lip movements in video sequences.

ACHIEVEMENTS

- Placed 4th among 50 teams in Hack-O-Rama Hackathon conducted at DSCE, Bengaluru -Jan 2024
- Participated in National Hackathon Aventus 2.0 at DSCE, Bengaluru - May 2024
- Participated in National Hackathon Aventus 3.0 at DSCE, Bengaluru - May 2025

LICENSE AND CERTIFICATIONS

NPTEL Certified in Cloud Computing - April 2025

Certified in C programming fundamentals through Google Developers Launchpad - August 2022

VOLUNTEER EXPERIENCE

Web-3 Community

Member of a dynamic team driving Web3 and blockchain innovation

Bengaluru, India

Jan 2023-Present

NUMERANO (Maths Club), DSCE

Core Member of the Club

Bengaluru, India

Jan 2023-Present
